GROWS

Moving towards a Green tRansitiOn through sustainable Waste management education in the VET Sector

GROWS at a glance

The GROWS project **aims to raise awareness and empower the VET sector** on the significance of sustainable waste management and the environment while **improving the capacity of VET providers/trainers** to implement activities in the field of environmental education with a **focus on sustainable waste management** and increase the levels of competences of VET providers on preparing and implementing a green education action plan.

The **GROWS objectives** are to:

- Build the capacity of the VET providers to implement sustainable waste management practices in the field of environmental education through an **interactive gamified E-learning Platform**
- Improve the competences of the VET providers' to prepare and implement a green education action plan by participating in the **Training Programme**
- Raise awareness about the significance of decreasing waste to VET providers and learners

Develop **innovative pedagogical learning material and resources** for the VET sector to promote environmental awareness and improve VET learner's green skills, aligned with the GreenComp
